RE: WVFRP005

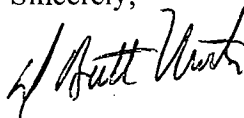

Dear Madam or Sir:

Pennzoil-Quaker State Company (PQS) is in receipt of your October 25, 2001 letter advising that the U.S. Environmental Protection Agency (EPA), Region III plans to conduct a government-initiated, unannounced exercise in the counties of the Huntington/Ohio River area during the week of November 12, 2001. This letter was in a package of bulk mail forwarded to our Chicago offices, as the facility PQS operated in this area was sold to another company, Poca Blending, LLC d/b/a Etowah River Terminal, LLC (ERT). ERT began operating the facility on or about October 16, 2001. The facility is located at 1015 Barlow Drive, Charleston, West Virginia 25311 and the president of ERT is Denny Farrell, who may be reached on his mobile telephone at (304) 552-2919.

Please accept this letter as our notification that PQS no longer operates the aforementioned facility, and therefore is not maintaining a facility response plan or emergency response personnel at the facility. If you have any questions regarding this information, please do not hesitate to contact me.

Thank you for your assistance in this matter.

Sincerely,

DBM/mak
